## Summary

Machine learning engineer with 5 years of experience in NLP and deep learning.

## Experience

Senior ML Engineer at TechCorp (2020-2024)

Built and deployed production ML pipelines using Python, PyTorch, and Docker.

Developed NLP models for sentiment analysis and text classification.

Managed a team of 3 engineers and collaborated with data scientists.

Implemented CI/CD pipelines and automated model training workflows.

Designed and optimised data processing pipelines using Spark and Airflow.

## Education

M.Sc. Computer Science, University of Tech (2018-2020)

B.Sc. Mathematics, State University (2014-2018), GPA: 3.8

## Skills

Python, PyTorch, TensorFlow, scikit-learn, pandas, numpy, SQL

Docker, Kubernetes, AWS, Linux, Git, CI/CD

NLP, Deep Learning, Machine Learning, Computer Vision

Spark, Airflow, MLflow, FastAPI, REST API
